Re: Euclid OH NPDES Permit OH0031062 Public Hearing Comments

Dear Ms. Opie:

The City of Perrysburg is a member of the Ohio Municipal League, the Maumee River Watershed TMDL Coalition and the Toledo Metropolitan Area Council of Governments (TMACOG), all of which have submitted one or more comment letters on the Euclid OH permit. The City of Perrysburg contributed commentary during the development of these comment letters and endorses the stated positions in all.

The City of Perrysburg objects to the Phosphorus limit proposed by USEPA for the City of Euclid for the reasons stated in the above position papers. The City supports the critique of USEPA's position laid out by Ohio EPA leadership during the June 8 public hearing, noting the proposal lacks legal, regulatory, technical or scientific justification.

Thank you for the opportunity to provide comments.

Alice Godsey, P.E.
Director of Public Utilities
